

OPEN ENROLLMENT IS HERE!

As the New Year approaches, Touchpoint Pediatrics would like to let you know we have to update ALL insurance information at your first 2026 appointment.

Please contact us prior to your next appointment if your insurance ID number has changed or if you switched insurance carriers. It is best to resolve any insurance issues *before* the day of your appointment.

When you receive your 2026 insurance card please bring it in for your next appointment so we may scan an updated copy.

Touchpoint Pediatrics participates with most major insurance plans such as, Aetna, AmeriHealth, Cigna and Horizon BCBS. Even though our practice does have contracts with these insurance providers, we still ask that you confirm with your particular plan that we are on your list of providers. You may do this by checking the insurance provider's website or calling them.

Even though we are non-participating with United Healthcare and Oxford, we have patients who have these insurances. Please call our office for more details.

If you have any questions regarding your insurance plan and eligibility, call us at 973-665-0900.

Thank you for entrusting your child's health with our practice in 2026.
